Paul, need your help as the resident expert on Allied. This is a communication from the local citizen's group. Bunch of questions put to the governor. Can you draft some responses please?

All -- likely the response on this might seem more appropriate coming from Wyant than the Governor. Questions are mostly pretty technical. Anyone else have thoughts on this?

Thanks,  
 b

Brad,

See attached. Would it be possible for you and your team to draft a response on the Governor's behalf to the attached?

Once your team has signed off on it there, we would need to run it through the approval process for letters (via Jean). If you think it is more appropriate for a response to come from Dan, I think that can be floated here too.

Thanks much and happy Wednesday!  
 SWM

Governor Snyder,

On behalf of the Kalamazoo River Cleanup Coalition, I am writing to formally deliver several questions we have developed concerning the new redevelopment option and the process for amendment of the feasibility study to the Allied Paper Superfund site in Kalamazoo.

Attached please find the letter and questions about the new proposed option. Also, we wanted to let you know that in addition to your offices, we delivered this letter to all our federal, state and local elected officials today via email and snail mail.

Please also feel free to forward as you deem appropriate.

We look forward to starting to ask these questions of the EPA at their next meeting in town on Thursday.

Best, Denise (KRCC President)
